

WE MAKE WHAT MATTERS: SUSTAINABLE PACKAGING

FOR OVER 100 YEARS, O-I HAS PROUDLY MADE PURE, NATURAL, EARTH-FRIENDLY **GLASS PACKAGING** FOR COMMUNITIES AROUND THE WORLD.

Our passion for glass, and its endless potential, does not end with the delivery of a kinder product. Driven by innovation, we will continue to lead the way to transform our processes, products, and our interconnected relationships to bring to life our vision for a sustainable future.

As far back as the invention of the glass blowing machine, our name has been synonymous with innovating the industry. Sustainability has always been built into our processes. For as long as we have made glass packaging, we have recycled glass to make our products. Our packaging is natural, safe and it is endlessly recyclable. And, our glass is made from four natural ingredients: sand, limestone, soda ash and recycled glass.

Sustainability is an evolution – not a destination. Around the world, we continue to innovate and advance sustainability in our operations, our products and in the marketplace with the shared vision of becoming the most sustainable producer of the most sustainable rigid packaging.

Education is a vital component of advancing our sustainable ambition, creating a mutual understanding of what sustainability means and how it impacts our future. Internally, education will advance our culture of safety, passion, teamwork, integrity, excellence, customer centricity and diversity. These pillars will drive our adoption of emission reduction, energy conservation, material efficiency and new breakthrough technologies. Externally, education will be vital to empower our customers and ultimately society to make informed packaging choices that will enable a sustainable future.

ACHIEVING BALANCE

Sustainability is about using **innovation-driven transformation** to achieve long term balance among people, the planet, and our collective prosperity. For over 100 years, O-I has proudly made **pure, natural, earth-friendly glass packaging** for communities around the world. Driven by innovation, we will continue to be the leaders in transforming our process, products, and our interconnected relationships to **bring to life our vision for a sustainable future.**

LEADING THE WAY

First glass container maker to have SBTi approved emission target.

First packaging company to offer Green Bond. Allocated EUR 255.6 million to qualified green projects.

First food and beverage packaging company to achieve a platinum rating in material health on the Cradle to Cradle (C2C) Product Scorecard.

Signatory to the CEO Action Pledge. Established D&I Executive council. Participating in the 2021 Corporate Equality Index.

Reduced Total Recordable Incident Rate by 28% in 2020.

Annually donating more than \$1.5 million through Charitable foundation, including funding to advance COVID-19 vaccine access and logistics.

Locally, O-I supported front line workers in the Toledo area by providing personal protective equipment, including production of face shield frames with our industrial 3D printer.

SUSTAINABILITY GOALS

50%
TARGET

Increase recycled content to 50% average by 2030. O-I is taking a tailored approach to increase recycled content rates across its enterprise network as rates vary significantly by geography.

40%
RENEWABLE

Renewable energy is a pillar in our strategy to lower carbon emissions. Our goal is to reach 40% renewable energy use by 2030 and to reduce total energy consumption by 9%.

ZERO
INJURIES

As part of our journey toward zero injuries, we are committed to a 50% improvement of our Total Recordable Incident Rate (TRIR) by 2030.

SOCIAL
IMPACT

We see tremendous opportunity to positively impact the planet and communities where we operate. We will collaborate with customers, NGOs, suppliers and local leaders to make glass recycling available in 100% of our locations.

25%
GHG REDUCTION

Approved SBTi target to reduce GHG emissions 25% by 2030 (interim target of 10% by 2025).

SUPPLY CHAIN
SUSTAINABILITY

Achieve sustainability balance, together, by aligning our supply chain with our 2030 sustainability vision and goals.

DIVERSITY
& INCLUSION

Create a diverse and inclusive environment where people feel welcomed to create a better future for themselves, each other, and O-I. We are focused on increasing all aspects of diversity across our team.

R&D
TRANSFORMATION

Reinvent and re-imagine glassmaking so the circularity of glass meets the potential of our MAGMA melting technology, low-carbon alternative fuels, and light-weighted glass packaging.

ZERO
WASTE

Reduce the amount of natural resources used, reduce the generation of waste by reuse, and recycling as we drive towards a "Zero Waste" organization.

25%
WATER REDUCTION

We are committed to reducing our global water usage 25% by 2030, prioritizing operations in higher risk areas.

INDUSTRY
LEADERSHIP
